CHRISTMAS SERVICE AT CONGREGATIONAL

Dr. Milligan Appeals For Increased Religious Devotion And Less Greed During Holiday Season.

Christmas services were held at the First Congregational church yesterday Two choirs, junior and senior, and a vested chorus sang carols and Christmas anthems while instrumental music contributed to the effect of the services A cantata "Bethlehem," was given Sunday night.

Dr. H. F Milligan said at the morning service He who would interpret Christmas must possess genius of no ordinary ability He must have a vision of history—so that all the past of human experiences is epitomized—the feelings of angels and archangels concerning God and human life must be in his soul. Man with the divine illumination for at least one day must be more than man He will be winged and filled with seraphic music making others measure up to the heavenly purpose and plan He who would interpret Christmas must radiate the holy wonder of the shepherds—so that with swift feet and beating hearts he will hasten to do homage to the Christ Child

Wisdom must be summoned and science must present her trophies What men value most of gold frankincense and myrrh must be surrendered. Selfishness and greed must pass as men follow the star whose silver gleams lead to where the Christ is Finally the interpreters' superlative genius must centralize all the Christ What a task is here unfolded Superficial men and women will make Christmas a marketing time only flippantly they will speak of a Merry Christmas. Not so with the life which enters into the deeper meaning of Christ's coming Such royal seekers will reverently worship as He enters this mystic cathedral The ground on which He walks will be holy. He will feel that God speaks to him. Here too will be emphasized certain undying universal principles like brotherhood, peace and good will. The moral nature of the universal man will be lifted to new heights. Papini comes with another theory for unifying christendom It will be but another dream Why all of these, when the answer is already here in the centrality and deity of Jesus? Only a God could melt a world into oneness with such imperial principles, and save men from their sins

"To the average life the joy of Christmas makes the most enthusiastic appeal. Time would fail us to tell what art, music, knowledge are due to Christ's coming A bare and bleak world would be our heritage without Him. The inspiration He has given has developed the whole religious life of man, it will yet conquer injustice and banish war. The carrier pigeons Mrs. Coolidge released at the launching of the new dirigible flew heavenward with the message "Glory to God in the highest and on earth, peace good will toward men"—a prophecy of that golden day, when the songs of the angels will become the universal experience of all mankind. God's greatest gift to man is Christ."

Western Rates Are Held Unreasonable By Commerce Body

WASHINGTON, Dec 22.—(By Associated Press.)—Freight rates in the territory south of Kansas City and between the Rocky Mountains and the Mississippi river are unreasonable and prejudicial to localities and shippers, examiners reported today to the interstate commerce commission.

Railroads co-operating with state commissions and the interstate commerce commission should work out far-reaching changes in the present rate schedules and submit these for approval, the examiners said.

The complaints were brought by the Oklahoma corporation commission, the Iowa Railroad commission and commercial bodies in St. Louis, Little Rock, Dallas and Fort Worth whose allegations in various proceedings dealt with state rates in Kansas and Missouri, which interests in other states asserted, were preferential to shippers in the states which made the rates

It was pointed out that the rates complained of were chiefly those dealing with manufactured and finished products.
