In Home, School and Community

By MRS. FREDERICK G. MURRAT.

THERE ARE MANY successful First, never to put their hands in women doctors, but few if any their mouths or on their faces. Second, always to wash their that are nationally eminent. We hands with soap the first thing when

do not find hey returned from school. This father feared diseases such as them in the first rank of specialists or fact the num-fact the num-tionalities especially the Oriental. ber going into These are two excellent rules for al all school children and, it followed of would do away with a lot of inthe general practice of medicine scems fections that are spread , in American schools. to be decreas.

## ing. One would think that women doctors Don't buy things in a hurry, or everything on the same day. Shop-ping is thing and a woman soon reaches the stage when her judgment is not good and she will buy al-most anything. We seldom regret failure to purchase an article but wo often regret the buying of something that didn't exactly suit our needs or

women doctors would be most would be most would be most uccessful, in the ctreatment of women and children, such how-ever, doce not seem to be the case we do not hear of women celebrated for their ability in these lines. This may be partly due to the fact that women are slow to support our taste. that women are slow to support their own sex. We hear it said that women will not go far in politics be-cause they can not count on the woman vote. Women the world over like to vote for and deal with men. Several women were talking about the three meals a day and buying the household supplies. One said: "I've made a New Year's resolu-

"I've made a New Year's resoluto go with my basket to the City took over the making of ten oftener this year than I've done dresses. tion to so with my basket to in the past. "I have two reason's; one is that But there are lines in medicin where women doctors are making good-where their services seem to have been sought out by the men in

I want to see what I'm getting and be sure I get it—I dislike to find fault and return goods; the other is that, when I use the telephone, I find myself ordering the same food stuffs all the time. If I were in the the profession and are much appro-ciated by them. In some of the largest surgional in some of the interest and intera-tion of anassthesis is entirely in the hands of women doctors. The records kept by these women form store, I'd see things that would sug-gest new dishes and I would have more varied menus for the family."
